

Alaska Miners Association
23rd Fairbanks Biennial Conference
Technologies & Challenges for Mining in Cold Climates

March 19-24, 2012 Westmark Hotel, Fairbanks, Alaska 907-456-7722 www.arcticminers.org

January 2012

The Alaska Miners Association (AMA) will be hosting our 23rd biennial conference from March 19-24, 2012 at the Westmark Hotel in Fairbanks, Alaska. This year's focus is "Technologies and Challenges for Mining in Cold Climates." Representatives from all areas of the mining industry will be making educational presentations as well as providing information on the latest in mining industry equipment and technology. The conference will feature: presentations by influential policy makers and international mining professionals; technical sessions covering a broad range of mining topics; a trade show; field trips; and many opportunities to discuss mutually beneficial projects. All are designed to facilitate and promote mining in Alaska.

Your organization is recognized as a valued participant in Alaska's mining industry; and we ask you to join the Biennial Conference as a co-sponsor. Your participation will ensure a venue in which Alaskan and foreign registrants will have the opportunity to learn of Alaska's mineral development and project support opportunities. Alaska's mining resources are tremendous. Your financial support of this event will aid the continued growth and development of the industry.

The AMA is devoted to public education, advocacy of responsible mineral development, support of reasonable legislation, technology transfer, and other mineral industry support activities. The AMA is a non-profit 501(c) (6) organization, tax ID: **92-0073024**. Sponsorships are deductible as a business expense, but not as a charitable donation. Checks should be made payable to: **Fairbanks AMA**.

I have attached a form to facilitate the sponsorship process. Thank you for considering this request.

Please do not hesitate to contact me with any questions relating to your participation as a sponsor. The Alaskan mining industry needs and values your support.

Sincerely,

/s/

Chad Gerondale
AMA Fairbanks Chair
