

ALASKA MINERS ASSOCIATION CONVENTION 2022 CALL FOR POSTERS

Students and professionals interested in presenting scientific research and technology with respect to mineral exploration, engineering, operations, economics, reclamation, environment, and other subjects pertinent to the mining industry are invited to present posters at the 2022 AMA Convention. This year's theme is Alaska Mining: Rock On!

The Poster Session will be held on Tuesday, November 8th on the second floor of the Dena'ina Center from 9 am to 5 pm. Each poster will be provided a 4-foot by 8-foot freestanding display board; pins will be provided. Poster session presenters should be available to answer questions at their displays during breaks between Technical Sessions on Tuesday, November 8th. AMA encourages posters to be displayed throughout the convention and removed by the end of the Technical Sessions on Thursday afternoon, November 10th. Posters may also be submitted for virtual viewing if presenters are unable to attend the meeting in person.

Presenters must submit a pdf of their poster with a 5-minute powerpoint explanation of their poster. All posters and accompanying powerpoint explanations will be accessible to all AMA members in a designated folder on the convention page of the AMA website. The presenting author of an accepted poster abstract will receive complementary convention registration.

If you are interested in presenting a poster, please provide author names, affiliation, contact information, presentation title, and abstract (500 word limit) to Eric Cannon (eric.cannon@wsp.com, 907-865-2525) for **student posters**, or Sue Karl (smkarl107@gmail.com, 907-441-8010) for **professional posters** by October 21. All abstracts will go through an AMA review process prior to acceptance. Authors of accepted posters will receive instructions for poster preparation and presentation by October 28. Please note that abstracts of a commercial sales nature will be declined for the poster session, and the author will be encouraged to pursue a tradeshow booth or core shack display.
